Professional Summary

Strategic Enterprise Architect with over 30 years of experience designing and implementing complex technology solutions across healthcare, financial services, and communications. Expert in aligni architectural requirements with enterprise strategy, specializing in c migration (AWS, Azure), high-availability (HA) systems, and seamle application integrations. A dedicated mentor and lifelong learner fo on solving meaningful problems through robust system designs.

Core Competencies

- **Architectural Governance:** TOGAF-aligned design, roadmap development, and best practices.
- **Cloud & Infrastructure:** AWS (Lambda, Fargate), Azure, VMware IBM Mainframe integration.
- **Integration & Middleware:** API protocols (REST/SOAP), SaaS integrations, and Dell Boomi.
- **Compliance & Security:** Deep expertise in HIPAA and PCI compliance for enterprise environments.

- **Leadership:** Agile/Scrum management, cross-functional team mentoring, and vendor relations.

Professional Experience

Quality Tester Solutions LLC | Enterprise Architect

Dec 2024 – Present

- **End-to-End Architecture Design:** Architected the comprehensiv integration of the Quality Tester Solutions e-commerce platform designing end-to-end data flows that synchronize front-end webshop operations with back-end inventory, financial manager and order fulfillment systems.
- **Infrastructure Migration & Automation:** Spearheaded the migra of the qualitytester.us infrastructure from a legacy website build a GitHub-deployed architecture, establishing automated deploy pipelines and maintaining a centralized map of cloud-based integration points to ensure service continuity.
- **Secure Process Integration:** Designed and implemented secure integration protocols for processing customer data and financial transactions, mapping dependencies across the e-commerce ecosystem to ensure compliance with digital security standards efficient data ownership.

SIOS Technology Corp. | Solutions Architect / Sales Engineer

Aug 2022 – Aug 2024

- Partnered with Sales to deliver solution designs and technical diagrams that directly contributed to double-digit software adop
- Successfully architected SAP S/4HANA and SAP HANA high-availability (HA) environments providing >99.99% uptime.
- Expanded partner ecosystems across U.S. and EMEA through cl architecture enablement and presales leadership.

Avaya Inc. | Senior Solutions Engineer / Infrastructure L

Oct 2021 – Jun 2022

- Spearheaded the evaluation of cloud build processes for DOD IL and IL5 secure container environments.
- Guided solution engineering teams through complex cloud build balancing strict compliance, security, and client needs.
- Created playbooks for deploying and testing third-party feature: Avaya OneCloud customer containers.

Truist | Senior Solutions Architect

May 2020 – Se

- Design Authority for SunTrust-BB&T merger: Orchestrated the integration of AWS, VMware, and IBM Mainframes for critical ret applications.
- Modernized card services microservices using AWS Lambda an Fargate, ensuring "Day One" client success.
- Enhanced Visio architectural templates, reducing documentatior overhead by 30%.

Omnisys, LLC | Solutions Architect

Dec 2018 – May

- Modernized legacy IVR/SIP applications into REST-based API su and established CICD frameworks.
- Identified security vulnerabilities and ensured remediation for pharmacy networks, maintaining strict HIPAA compliance.
- Increased CSAT scores from 45% to 75% by triaging and priorit complex support issues.

Education & Certifications

- **B.S., Mass Communication:** University of Utah
- **Certifications:** AWS Certified Solutions Architect - Associate, Certified ScrumMaster (CSM), Google Cloud Digital Cloud Lead
